

## **PROPOSAL PAPER**

### **Independent Technical Panel on Demand Management Measures Final Report on California Landscape Water Use *12-15-15 Draft***

**Section: 6**

**Section Title:** New Landscapes

**Recommendation:** #2 State Facility Leadership

**Authoring Team:** Penny Falcon

#### **Background:**

#### **Recommended Action:**

- The State's "lead by example" demonstrations will further help to educate the public, and provide ideas about how beautifully apply California-friendly landscaping. Visual impact and messaging.
- State has the expertise to develop training tools

#### **Proposal:**

- 1) New landscape construction on state facilities should incorporate the watershed approach to landscaping designs. These facilities should include demonstration gardens with accompanying, appropriate educational signage.
- 2) The State should develop hands-on training and basic online video training (CalTrans already implementing video training?)
